"Never bet against America" – Warren Buffet

"For 240 years it's been a terrible mistake to bet against America, and now is no time to start. America's golden goose of commerce and innovation will continue to lay more and larger eggs. America's social security promises will be honored and perhaps made more generous. And, yes, America's kids will live far better than their parents did." – 2015 Annual Letter

TORQUE: Proprietary framework to benefit from extreme dislocations

Market perception of businesses is volatile

- The actual intrinsic value of quality companies changes at a relatively predictable rate.
- However, market perception of fair value goes through extremes every now and then.
- Torque attempts to benefit from these extreme changes in perception.

CASE STUDY: HEICO [MKT CAP \$21 BN]

- "I remind you that I think, and upper Management feels, that HEICO is really a vehicle for generating strong cash flow. The methodology that we use are in two groups: Aviation and Electronic Technologies, where we get very, very strong margins on products which are protected mainly from excessive competition. -Q4 2016 Earnings Call' — Larry Mendelson – CEO, HEICO
- Component / parts supplier for Airlines, Aerospace companies, and defense contractors. Established monopoly for certain defense components; 60% market share in aerospace generic spare parts.
- Growth drivers:
 - a. Moats built predominantly around regulatory (FAA) hurdles and solid customer relationships. Takes years to develop and get parts approved. Even harder to achieve scale. Heico nailed it with 60% + market share in generic equivalent spare parts (PMA).
 - b. House of Entrepreneurs: 80+ M&As over last 30 years. It is an acquirer of choice. Uniquely designed acquisition framework in a decentralized set up is hard to replicate.
 - c. Focused R&D investments: Long lasting customer relationships help understand the needs. Heico's absolute R&D spend is hard to match for smaller players – fortifying Heico's lead even further.
 - d. Significant Growth Runway: In Aerospace side, penetration of generic parts is ~4%, implying massive "organic" growth opportunity ahead. In Defense side, inorganic opportunities are plenty as Heico is likely 3-4% of the addressable market.

NOTE: Heico is a part of the Marcellus' GCP Portfolio

Source: Marcellus performance data is shown gross of taxes and net of fees & expenses charged till 29th February 2024 on client account. Time period returns are absolute. Marcellus' GCP USD returns are converted into INR using USD:INR exchange rate from NSE

Note: * Since Inception performance calculated from 31st Oct 2022. The inception date is 31st October 2022, being the next business day after the account got funded on 28th October 2022. S&P 500 net total return is calculated by considering both capital appreciation and dividend payouts.

Key Information - Structure

- Investment Manager- Marcellus Investment Managers GIFT City branch
- Regulator International Financial Services Centres Authority (IFSCA) formed under Act of Parliament viz. International Financial Services Centres Authority Act, 2019
- Indian Residents can remit upto USD 2,50,000 per year per person under the Liberalised Remittance Scheme (LRS) of RBI.
- Tax Collected at Source (TCS) by the remitting bank for LRS is 5% of the remitted amount (20% with effect from October 1, 2023).
- Minimum Ticket Size for investment in GCP for an Accredited Investor is USD 25,000 and minimum ticket size through GIFT City is USD 1,50,000.
- Tax related information: For any foreign security held for not more than 24 months, tax on STCG shall be payable @ highest slab rate as applicable + surcharge & cess. For foreign securities held for more than 24 months, gains shall qualify as LTCG and shall be taxable @ 20% with indexation benefit. Dividend shall be subject to tax at tax rates applicable to respective investors. Foreign jurisdictions where securities are traded may also withhold taxes. Credit of such taxes will depend on the tax treaties India may have with such countries and tax credit rules in India. Please consult your tax advisor for assessing the tax implications applicable to you.
- Preferred mode of holding: Joint holding (to avoid any estate tax implications in US in case of death of the single holder). However single account establishment is allowed under this strategy.

- Marcellus offers Global Compounders Portfolio with a zero fixed fees option
- The Global Compounders Portfolio comes with ZERO entry load/exit load and with no lock-in. Our clients can choose any of the following fee structures:
- 1. A fixed fees model (2% p.a. fixed fees + zero performance fees) or
- 2. A performance fees model (zero fixed fees + performance fees of 20% profit share above a hurdle of 5% p.a., no catch-up) or
- 3. A hybrid model (1% p.a. fixed fees + performance fees of 15% profit share above a hurdle of 9% p.a., no catch-up).
- High water mark applies for performance fees
- Fees are subject to 18% GST for Resident Indian client

TORQUE – Style framework for risk management

Identifies extreme style exposure of Portfolio – Triggers Torque driven rebalancing

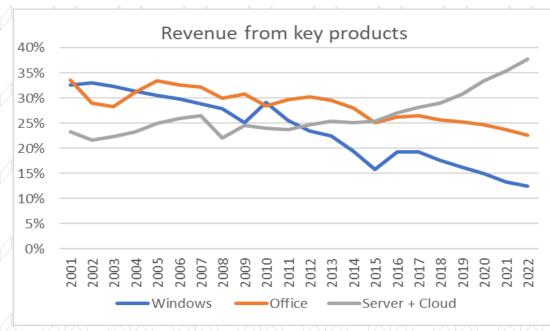

Source: Bloomberg and Marcellus proprietary model generated data

Heterogeneous mix of stocks in the portfolio allows position sizing to take care of the "Systematic Extremes" Top 13 stocks constitute ~75% of the portfolio. Remaining positions provide cushion for extreme systematic risks through TORQUE

CASE STUDY: MICROSOFT [MKT CAP \$2.6 TN]

- Microsoft has evolved from a Windows/Office business into a strong enterprise tech player with nearly half the revenue coming from cloud and another 15% from servers, enterprise services.
- It is also a rare tech company that recovered from over a decade of lethargy following a change in management. As a result, over the past eight years, Microsoft has seen its culture become more growth oriented and uniquely collaborative among tech majors.
- This cultural shift helped deliver on the cloud opportunity and build non-cloud growth levers (LinkedIn, gaming). Microsoft leveraged its enterprise tech legacy to emerge as a strong no 2 in the public cloud market with margins higher than the leader (AWS).
- Microsoft also enjoys network benefits in the non-cloud business (Windows, server, gaming, LinkedIn, GitHub).
- In our view Cloud business has strong growth runway (23% CAGR ahead), we anchor to 15% revenue/PAT growth and 17% FCF growth.

NOTE: Microsoft is a part of Marcellus' GCP portfolio
