In-line operating performance

Rural revival and budget sops to support entry-level demand

- Hero MotoCorp's (HMCL) 4QFY25 margins remained stable YoY and were also in line with our estimates. Reported EBITDA margin came in at 14.2%, while ICE margins stood at 16.1%, adjusted for the INR1.43b loss in EV business.
- We expect HMCL to deliver a volume CAGR of ~5% over FY25-27, driven by new launches and a ramp-up in exports. HMCL will also benefit from a gradual rural recovery, given strong brand equity in the economy and executive segments. The stock looks attractive at ~16.6x/15.3x FY26E/27E EPS. **We reiterate BUY with a TP of INR4,761 (17x FY27E EPS + INR110/INR140 for Hero FinCorp/ Ather post 20% Holdco discount).**

Key takeaways from the management commentary

Domestic 2W industry update

- Management expects the 2W industry to post 6-7% YoY growth in FY26, largely similar to FY25.
- Management also expects to outperform industry growth in FY26, backed by its upcoming new launches.
- They had taken a planned shutdown in four plants (Daruhera, Neemrana, Gurgaon and Haridwar) in Apr'25 for around five days to resolve supply-chain issues, which they timed with maintenance activity. However, the shutdown did not impact retails as HMCL clocked 500k units of retails in Apr'25. This did not also hurt channel inventory, which is now at 4-5 weeks and is likely to remain here going forward. This issue has now been resolved and production is back to normal from May'25 onward.
- HMCL has seen replacement demand bounce back to 11% from 6% QoQ in 4Q. This used to be around 18-20% before Covid.
- The company's spare parts and accessories business has been gradually scaling up on the back of improving penetration and expanding portfolio to products like tyres and batteries. HMCL aims to grow this business profitably. Its second global spare-parts centre is expected to come up in its Tirupati plant in the near future.

Update on EVs

- HMCL has now started to see a pick-up in traction for Vida products from 4Q, and the company ended the quarter with a 7% market share. In fact, HMCL has close to 20% market share in almost 60 towns now.
- It will continue to focus on improving market share in this segment.
- HMCL has lined up two new affordable EVs, both of which are likely to be launched in Jul'25 to fill up the product gaps. These new products will help to accelerate EV growth in the coming quarters.
- Management believes, at 25-30k monthly sales run rate, it can achieve break-even in EVs. This is, however, likely to take a couple of years, as per management.
- HMCL expects PLI approval for Vida Pro by Jul'25. It will soon file application for PLI approval for other models as well.

Update on Exports

- In FY25, exports grew 43% YoY over a low base, 2x of industry growth. Markets like Bangladesh, Columbia, Nepal and Mexico are driving strong growth for HMCL.
- Almost 40% of its exported models belong to the premium segment.
- HMCL continues to be aggressive on export growth and remains confident of outperforming industry growth going forward.

Feedback on new acquisition

- HMCL has recently acquired a 34.1% stake in Euler Motors for a consideration of INR5.1b, making it an associate company.
- As per management, 3W is an attractive alternate opportunity that HMCL would look to diversify into. Its large industry size (INR170b p.a.) with attractive profit pools (20%+ EBITDA margin) makes it an attractive investment option for future growth.
- Management believes Euler Motors has a differentiated product offering in the market with a mix of experienced and young professionals managing the business.
- Management is optimistic about the future growth prospects of this business.

Other Highlights

- HMCL has taken a 2% price hike wef Apr'25 to pass on the impact of OBD2 implementation, which has been in line with the industry.
- At a consolidated level, profit share from associates jumped in 4Q and FY25 due to the conversion of CCPS of Ather to equity shares, which led to a one-time gain of INR1.7b.
- Retail finance penetration remained stable at 59% in 4Q and 63% in FY25. With a reduction in interest rates, management expects the stress in the 2W financing system to ease out.

Valuation and view

- **We expect HMCL to deliver a volume CAGR of ~5% over FY25-27**, driven by 1) new model launches in scooters and motorcycles showcased at the Bharat Mobility Show; 2) stable demand for its Xtreme 125 R; and 3) a ramp-up in exports. As highlighted, management has recently launched the Destiny 125cc, and is expected to launch the Xoom 125 and the Xoom125cc in the coming months. They would also launch the Xtreme 250R and the XPulse 210.
- **Gradual rural revival bodes well for HMCL:** Rural sentiment is positive given a good kharif output and healthy rabi sowing so far. Also, management has indicated that it is seeing a gradual recovery in rural markets currently. Given that HMCL has a dominant 100-110cc portfolio, any recovery in the rural region bodes well for the company. Further, the recent tax cut in the Union Budget is likely to help support entry-level demand, in our view. Overall, we expect the 100cc segment demand to pick up in FY26E and HMCL to emerge as a beneficiary of the same.
- **Exports offer a huge headroom for growth:** Exports to emerging markets present a huge opportunity (~2x that of the Indian market) for HMCL, given that it has a relatively smaller presence in exports so far. HMCL has doubled its target export markets to 40 countries over the past few years. Over the years, HMCL has been working on launching new products customized to key markets, revamping its distribution network, and investing in brand building in key markets. In FY25, HMCL posted 43% YoY growth in exports, 2x the industry

growth. We expect exports to continue to be a steady growth driver for HMCL in the coming years.

- **Reiterate BUY:** We have marginally tweaked our estimates. We expect HMCL to deliver a volume CAGR of ~5% over FY25-27, driven by new launches and a ramp-up in exports. HMCL will also benefit from a gradual rural recovery, given strong brand equity in the economy and executive segments. HMCL's strategy to grow non-domestic motorcycle sales via PAM, exports, and EVs should aid overall growth and margin expansion. The stock looks attractive at ~16.6x/15.3x FY26E/27E EPS. **We reiterate BUY with a TP of INR4,761 (17x FY27E EPS + INR110/INR140 for Hero FinCorp/Ather post 20% Holdco discount).**
