Execution remains strong

Kalpataru Projects' (KPIL) 3QFY26 performance was strong, driven by T&D, building and factories, and oil & gas segment. We continue to expect KPIL to benefit from strong pipeline + order book of INR633b, execution ramp-up and diversified mix of projects. The company has strengthened its balance sheet by repaying debt from monetization proceeds. We will keep a watch on commodity prices, though the company has so far hedged most of its exposure to key commodities, except steel. We cut our estimates by 8%/3% for FY27/28 to bake in slightly lower margins. The stock is currently trading at attractive valuations of 16.4x/13.4x P/E on FY27/28E earnings. Reiterate BUY with an unchanged SoTP-based TP of INR1,500, valued at 18x P/E on Mar'28 estimates for the core business.

In-line revenue/EBITDA, beat on PAT

KPIL's 3QFY26 revenue grew 20% YoY to INR58b, driven by strong execution in T&D, B&F, Oil & Gas and Urban Infra. Absolute EBITDA increased 20% YoY to INR5b, though EBITDA margin at 8.3% was marginally below our estimate of 8.5% due to the impact of delays in water projects on standalone basis. A lower-than-expected tax rate drove a strong 48% YoY growth in adj PAT to INR2.3b vs. our estimate of INR2.2b. YTD order inflows stood at INR195b, taking the order book to INR633b (+3% YoY). NWC days improved to 97 (vs. 112 in 3QFY25) and net debt remained flat YoY at INR18b. The company recognized a one-time impact of INR295m related to the new labor code as an exceptional item. For 9MFY26, revenue/EBITDA/PAT stood at INR162b/INR14b/INR6b, up 28%/28%/56% YoY, with margins flat at 8.4%.

T&D remains the key growth driver

T&D business remains the key growth driver, with 3QFY26 revenue rising 14% YoY to INR31b, supported by strong execution in domestic and international markets. The segment's YTD order inflows stood at INR78b, with an additional INR58b in L1, taking the order book to INR258b (+12% YoY). Domestic demand remains strong due to grid expansion and renewable energy integration, supported by PGCIL's annual pipeline of INR900b over the next four years. Internationally, T&D momentum remains healthy across Sweden, CIS, LATAM and other markets. Going ahead, the company expects 15-20% YoY growth in inflows for T&D segment from both domestic and international markets.

Among non-T&D, B&F and oil & gas were growth drivers

Among non-T&D businesses, execution was strong in B&F and oil & gas. B&F reported revenue of INR18b (+17% YoY) in 3QFY26, supported by steady progress across residential, industrial, hospitals and data center projects. The O&G business recorded revenue of INR7b (+56% YoY) on the back of strong execution of a Saudi Aramco project, with the remaining portion to be completed over FY27/28. Opportunity pipeline remains strong in Saudi Arabia, Abu Dhabi and Qatar, where KPI is now qualified to bid. We expect B&F and oil & gas to remain key growth drivers going ahead too.

Water and railways remain weak

The water segment remained weak due to a delay in the release of funds from clients mainly in Uttar Pradesh and Jharkhand. Revenue declined 26% YoY to INR4b, although collections have started improving, with ~INR13b received YTD, including ~INR3b in Jan'26. The company expects further receivables to come through in 4QFY26. The railways business delivered revenue of INR3b (+31% YoY) and has an order book of INR2.7b. KPIL remains selective in both segments.

Asset monetization proceeds utilized for debt reduction

KPIL completed the sale of VEPL in Jan'26 at an enterprise value of ~INR8b, resulting in cash inflows of ~INR6b and the transfer of ~INR2b of associated debt, thereby freeing up both equity and leverage. In addition, the Indore real estate project had ~INR1b outstanding as of Dec'25, of which ~INR0.4b has already been collected in Jan'26, with the balance expected by Mar'26; all proceeds will be utilized for further debt reduction. Net debt declined 16% QoQ to INR19b in 3QFY26, with further improvement expected in 4QFY26. The balance sheet remains comfortable, and net working capital improved to 97 days in 3QFY26 from 102 days in 2QFY26. KPIL maintained its guidance to sustain net working capital at around ~100 days going forward.

EBITDA margin impacted by water projects

EBITDA margin at 8.3% came in slightly lower than our estimates due to the impact of water projects on standalone basis. Management highlighted that commodity risks are well controlled, with ~80-95% hedging in place for aluminum, copper and zinc, and steel cost increases factored into tender pricing. The water segment continues to be the key drag, while at a consolidated level, margins were further impacted by legacy losses in Fasttel (Brazil) and lower revenue from road assets following the termination of the Wainganga Expressway. We bake in slightly lower margins to factor in higher commodity prices.

Financial outlook

We cut our estimates by 8%/3% for FY27/28 to factor in slightly lower margins. We expect KPIL to report a CAGR of 17%/20%/28% in revenue/EBITDA/PAT over FY25-28. Driven by improvement in margins and moderation in working capital, we expect KPIL's RoE/RoCE to improve to 15%/13% in FY28.

Valuation and view

KPIL is currently trading at 16.4x/13.4x P/E on FY27/28 earnings. Maintain BUY with an unchanged SoTP-based TP of INR1,500, based on 18x Mar'28E EPS for the core business.

Key risks and concerns

Slowdown in execution, lower-than-expected order inflows, sharp rise in commodity prices, and increase in promoter pledge are some of the key concerns that can weigh on financials and valuations of the company.
