- RIL reported a subdued 4Q, with consolidated EBITDA declining 4% QoQ (flat YoY) to INR441b (vs. our/consensus estimates of INR484b/INR469b), primarily driven by weaker profitability in Energy business due to the disruptions caused by the West Asia conflict. RIL's consumer-facing businesses remained resilient.
- Reliance Retail's (RR) revenue growth picked up to 11% YoY, though EBITDA growth was modest at ~3% YoY (flat QoQ, 6% beat), as margins contracted ~60bp YoY (in line) due to the ramp-up of low-margin hyper-local deliveries.
- RJio EBITDA was up ~2.1% QoQ (in line, 14% YoY) driven by ~9.1m net sub adds and stable ARPU (despite two fewer days QoQ). RIL's digital services EBITDA was up 3.7% QoQ (+16% YoY, in line).
- Consol. O2C EBITDA declined 12% QoQ (down 4% YoY, 20% miss) due to increased crude sourcing premium and higher freight and insurance costs.
- Consol. E&P EBITDA declined 14% QoQ (-18% YoY, 9% miss) due to the natural decline in well production and higher refurbishment costs.
- Attributable 4Q PAT declined 12% YoY to INR170b (-7% QoQ), and was 17% below our estimate due to weaker EBITDA and lower other income.
- Committed capex in 4Q jumped to INR405b (vs. INR338b QoQ, +13% YoY). RIL's reported net debt rose ~INR76b QoQ to INR1,247b (vs. INR1,171b YoY).

FY26 performance summary:

- RIL's consolidated EBITDA grew 8% YoY to INR1,789b, while adjusted attributable PAT grew by a modest ~3% YoY to INR719b, due to higher interest and depreciation expenses.
- FY26 committed capex increased ~10% YoY to INR1,443b, while cash capex moderated ~12% YoY to INR1,229b (~20% YoY lower RJio capex).
- Calculated debt (including spectrum liabilities and creditors for capex etc.) inched up by ~INR58b in FY26 to INR2,818b, on our estimates.
- Consol FCF for FY26 improved to INR406b (vs. INR66b), boosted by Asian Paints stake sale. Even **excluding other/interest income, RIL's consolidated FCF improved to ~INR180b (vs. outflow of INR98b YoY)**, driven by improvement in RJio's FCF generation (INR213b vs. INR39b YoY).
- We cut our FY27E EBITDA and PAT by 3-4% due to the challenges in the Energy business and delays in tariff hikes in RJio. Overall, we build in a CAGR of 9-10% in RIL's consolidated EBITDA/adj. PAT over FY26-28E.
- **We reiterate our BUY rating with a revised TP of INR1,655 (earlier INR1,715).** While the energy business weakness drives the near-term earnings downgrade, sustained mid-to-high teen growth in RR and a tariff hike, along with impending JPL IPO, remain the key triggers for RIL's stock price.

Reliance Retail – Growth picks up; margin moderates due to QC ramp-up

- RRVL net revenue grew 11% YoY (vs. 9% YoY in 3Q) and was higher at ~14% YoY on a comparable basis (adjusted for FMCG demerger from Dec'25).
- Quick commerce (QC) offering, JioMart, has scaled up rapidly, with the number of daily average orders rising 29% QoQ (4x YoY) as hyperlocal deliveries scaled up to electronics and fashion & lifestyle categories, with 2-hour delivery promise.

- Store additions remained calibrated, with 181 net additions (333 additions, 152 closures); retail area inched up 1% YoY to 78.3msf (+0.2msf QoQ).
- Operating EBITDA rose by a modest 3% YoY (5% beat) due to an accelerated scale-up of lower-margin hyperlocal deliveries (margin -60bp YoY, in line).
- Despite subdued net area additions, RRVL's cash capex rose to INR291b (vs. INR187b), while gross block additions remained steady YoY at INR229b.
- FY26 OCF (post interest and leases) improved to INR218b (vs. INR176b YoY), aided by improved profitability and working capital release. FCF outflow rose to INR69b (vs. INR8b outflow YoY) due to elevated capex.
- As a result, RRVL's effective net debt rose ~INR30b YoY to INR357b.
- We expect store pickup additions and increased momentum in QC to support double-digit revenue growth for RR over the medium term. However, near-term profitability is likely to be adversely impacted by losses in QC.
- We fine-tune our FY27-28 estimates and now project a ~12%/10% CAGR in RR's revenue and EBITDA over FY26-28.
- **Reliance Consumer Brands** (RIL's FMCG arm) delivered INR75b in revenue (2x YoY). Campa surpassed ~INR47b in FY26, sustaining its double-digit market share in key markets. Independence brand delivered INR26b in revenue.

RJio – Largely in line; FCF generation picks up as capex moderates

- RJio's standalone revenue grew ~2% QoQ (+11% YoY), driven by ~9.1m subscriber net adds. ARPU remained stable (despite two fewer days QoQ).
- EBITDA grew ~2% QoQ (+14% YoY) to INR181b (in line), driven by lower network opex (+1% QoQ, 1% below).
- EBITDA margin expanded ~10bp QoQ to 54.3% (~10bp beat) with incremental EBITDA margin at ~59% (slightly higher vs. our estimate of ~55%).
- JPL's non-mobility revenue and EBITDA continued to see acceleration, with 8% and 44% QoQ growth, benefitting from rising FWA base and traction in B2B.
- FY26 cash capex (incl. payment of creditors for capex and principal component of spectrum repayments) declined ~20% YoY to INR372b (vs. INR462b YoY), while gross block additions (a proxy for committed capex) in FY26 declined modestly to INR412b (vs. ~INR422b YoY).
- FY26 FCF (post interest, leases and spectrum repayments) improved significantly to INR213b (vs. INR39b in FY25), driven by moderation in capex.
- Effective net debt (including spectrum debt and creditors for capex) declined by INR223b in FY26 to INR1.65t.
- Management expects ~4-5% YoY ARPU growth, driven by customer uptrading and bundling of value-added services in the absence of a tariff hike.
- We cut our FY27 revenue and EBITDA estimates by ~1-2%, led by delays in the tariff hike and rising share of M2M subs in the mix. We continue to build in the next round of tariff hikes (~15% or INR50/month on the base pack) in 2QFY27, but note that there could be a delay of few months to 3Q.
- We expect FY26-28E revenue/EBITDA/PAT CAGR of ~15%/18%/24% for RJio, driven by tariff hike flow-through in wireless and acceleration in FWA offerings. JPL's IPO is imminent and its valuations remain a key near-term monitorable.

Standalone: Weak O2C and E&P performance drive miss

- Revenue stood at INR1,418b (+7% YoY). EBITDA came in 34% below our estimate at INR120b (est. INR181b; -21% YoY). Reported PAT also stood 38% below our estimate at INR74b (-34% YoY).
- **As of 31st Mar'26**, RIL's standalone CWIP stood at INR1,376b (vs. INR824b on 31st Mar'25). Net debt stood at INR688b (vs. INR619b as of 31st Mar'25). **In FY26**, the company generated CFO of INR791b (flat YoY).
- **O2C SA**: 4Q EBITDA declined 15% YoY to INR105b, despite strong fuel cracks, as margin gains were offset by higher crude premiums, freight, insurance and fuel costs. Consumer-focused actions (LPG diversion, KGD6 allocation, stable retail fuel prices) led to under-recoveries, while SAED on exports and weak polymer spreads further weighed on profitability.
- Production meant for sale decreased 4% YoY. The Jio-BP network added 283 new outlets in the last 12 months, resulting in robust YoY volume growth of 24%/37% in HSD/MS. Polymer margins declined amid rise in naphtha prices, with PE/PP margins down 4%/28% YoY and PVC margin up 2% YoY. Consol. O2C EBITDA (incl. other income) decreased 4% YoY to INR145b.
- **E&P**: 4Q revenue declined 8.9% YoY, driven by lower gas realizations in KGD6 and CBM, along with reduced KGD6 volumes (down 6% YoY at 59.6BCFe). KGD6 prices fell to USD9.63/mmbtu (vs. USD10.09/mmbtu), while CBM prices declined to USD9.01/mmbtu (vs. USD10.36/mmbtu). EBITDA dropped 18.1% YoY to ~INR42b due to lower revenue and higher operating costs from maintenance and government levies.

Near-term dynamics:

- Energy markets are likely to remain volatile, driven by geopolitics and trade tensions.
- Oil demand is expected to decline marginally by ~0.08 mb/d in CY26.
- Constrained refining capacity and prolonged disruptions should keep fuel cracks elevated, with gradual normalization as supply recovers.
- The board has recommended a dividend of INR6/sh (FV: INR10/sh).

Valuation and view

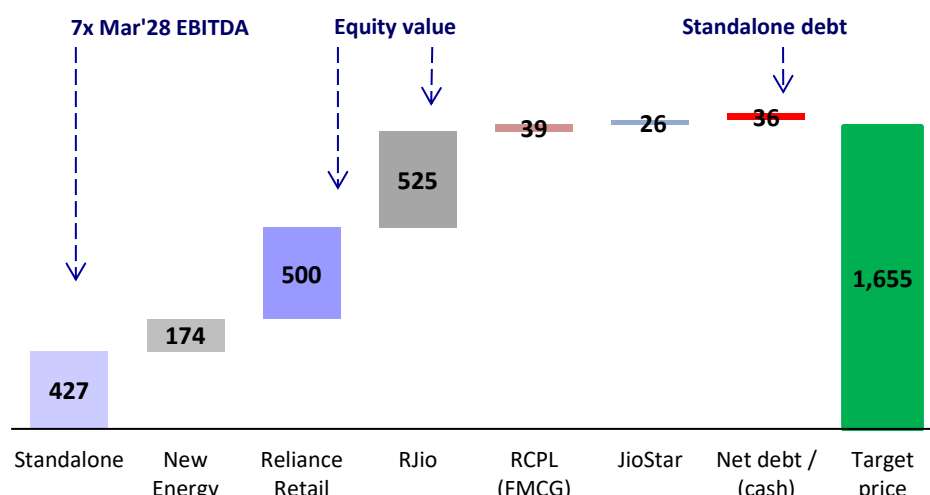

- We cut our FY27E EBITDA and PAT by 3-4%, due to challenges in the Energy business and delays in tariff hikes in RJio.
- We expect RJio to remain the biggest growth driver (digital to contribute ~80% of RIL's incremental EBITDA), with 18% EBITDA CAGR over FY26-28E, driven by the wireless tariff hike (~15% in 2Q), market share gains in wireless, and the continued ramp-up of Homes and Enterprise offerings.
- We expect RR to deliver ~12% revenue CAGR over FY26-28E, driven by a mix of store rollouts, improved productivity and scale-up of hyper-local offerings. However, the faster ramp-up of lower-margin businesses could weigh on blended EBITDA margin, driving ~10% EBITDA CAGR over FY26-28E.
- After a subdued FY25, RIL's O2C EBITDA improved in FY26 but was hit by higher crude premiums and high freight and insurance costs due to the West Asia conflict. Going ahead, we expect only a modest recovery over FY26-28E. Our FY28E consolidated EBITDA for O2C and E&P is broadly similar to FY24.
- Overall, we build in a CAGR of ~9-10% in RIL's consolidated EBITDA and PAT over FY26-28E.

- We model an annual consolidated capex of INR1.25t for RIL over FY26-28E (similar to FY25) as we believe the peak of capex is likely behind, which should lead to healthy FCF generation (~INR1t over FY26-28E) and a corresponding decline in consol. net debt.
- For **RR**, we ascribe a blended EV/EBITDA multiple of 28x (30x for core retail and ~6x for connectivity) to arrive at an EV of ~INR8.5t (or ~USD91b) for RRVL and an attributable value of INR500/share (earlier INR550/share) for RIL's stake in RRVL. Sustained mid-teen revenue growth in RR remains the key for RIL's re-rating.
- We value **RJio** on DCF implied ~11.6x Mar'28E EV/EBITDA to arrive at our enterprise valuation of INR11.3t (USD120b) and assign ~USD8b (INR740b) valuation to other non-mobility offerings under JPL to arrive at **INR12t (or ~USD128b) enterprise valuation for RIL's digital services segment**. Factoring in net debt and ~33.5% minority stake, the attributable equity value for RIL comes to **INR525/share** (vs. INR540 earlier).
- Using the SoTP method, we value the O2C/E&P segments at 7.5x/5.0x Mar'28E EV/EBITDA to arrive at an enterprise value of INR5.8t (or ~INR427/sh) for the standalone business. We ascribe an equity valuation of INR525/sh and INR500/sh to RIL's stake in JPL and RRVL, respectively. We assign INR174/sh (~INR2.4t equity value) to the New Energy business, INR26/sh (~INR350b) to RIL's stake in JioStar and INR39/sh (~INR530b, based on 2x FY28 gross sales) to RCPL (RIL's FMCG arm). **We reiterate our BUY rating with a revised TP of INR1,655 (earlier INR1,715).**

RIL – story in charts

Exhibit 14: Sequential quarterly EBITDA movement

Exhibit 15: Consumer businesses contributed ~56% of RIL's segmental EBITDA in 4QFY26

Exhibit 16: Annual EBITDA movement over FY26-28E

Exhibit 17: Share of consumer businesses in EBITDA on the rise

Exhibit 18: Expect ~9% consolidated Adjusted PAT CAGR over FY26-28E

Exhibit 19: Model ~INR1.3t capex annually over FY26-28E

Exhibit 20: Expect ~INR1t FCF generation over FY26-28E

Exhibit 21: Expect net debt to decline over FY26-28E

Source: Company, MOFSL

Source: Company, MOFSL

4Q in line; robust FCF generation in FY26 as capex declines sharply

- RJio's standalone revenue at INR334b was up 1.9% QoQ (+11.2% YoY, in line), driven by 9.1m overall net adds. ARPU remained stable QoQ (despite two fewer days QoQ).
- Among key expenses, network opex was up 1% QoQ (+2.5% YoY), while SG&A and other costs rose 4.3% QoQ (+19.1% YoY). Interconnect charges increased 1.7% QoQ (~50% YoY), and employee costs rose 2.5% QoQ (5.4% YoY).
- EBITDA grew 2.1% QoQ (+14.3% YoY) to INR181.1b (inline). EBITDA margin expanded ~10bp QoQ to 54.3% (+145bp YoY, 10bp ahead).
- Incremental EBITDA margin for the quarter stood at ~59% (vs. 52.5% in 3QFY26, higher vs. our estimate of ~55%).
- D&A expenses at INR67.1b grew 0.8% QoQ (+13.2% YoY), while interest cost at INR22.4b was up 5.5% QoQ (+66.3% YoY, ~3% above our estimate), likely due to capitalization of 700MHz spectrum.
- Reported PAT at INR73.2b was up 2% QoQ (+10.2% YoY, in line).
- For FY26, RJio's revenue/EBITDA/PAT grew 13%/16%/14%, driven by ~36m net subscriber additions (+7% YoY) and ~8% YoY ARPU growth.
- However, FY26 pre-IND AS EBITDA growth was likely lower at ~12-13% YoY, as lease repayments surged ~70% YoY to INR60.3b.

FCF generation picks up as capex moderates; net debt down by ~INR223b

- FY26 cash capex (incl. payment of creditors for capex and principal component of spectrum repayments) stood at INR372b (vs. INR462b YoY, INR224b in 1H).
- Gross block additions (a proxy for committed capex) in FY26 stood at INR412b (vs. ~INR422b YoY and INR251b in 1HFY26).
- FY26 FCF (post interest, leases and spectrum repayments) improved to INR213b (vs. INR39b in FY25), driven by strong operating performance.
- Effective net debt (including spectrum debt and creditors for capex) declined by INR223b in FY26 to INR1.64t (INR146b decline vs. 1HFY26).

ARPU stable QoQ; 5G now accounts for ~54-55% of wireless subs/data traffic

- Overall EoP subscriber net adds came in at ~9.1m (vs. our estimate of 8.7m QoQ), taking the total subscriber base to 524.4m.
- 5G user base increased further to 268m (from 253m QoQ), with 5G now accounting for ~54-55% of overall wireless subs and data traffic.
- We note RJio witnessed a pickup in M2M SIM additions in 4Q. Excluding M2M and HBB subs, the consumer wireless base rose by a modest ~3.8m QoQ.
- Home Broadband net adds at ~1.8m connections moderated QoQ due to the rollout of non-line of sight devices.
- Jio AirFiber user base rose to ~13m (vs. 11.5m QoQ) and overall HBB connections reached 27.1m.

Non-mobility revenue up 8% QoQ; EBITDA jumps ~44% QoQ

- JPL's non-mobility revenue grew ~8% QoQ to ~INR49b (up ~23% YoY), likely driven by higher contributions from content bundling and cloud services.
- JPL's non-mobility EBITDA at INR12.9b grew ~44% QoQ (+56% YoY) as EBITDA margin expanded ~660bp QoQ to 26.4% (+555bp YoY), driven by operating leverage.
- Non-mobility business now accounts for 12.75%/6.6% of JPL's consolidated revenue/EBITDA.

Valuation: Ascribe INR10.7t (~USD114b) equity value to JPL

- We cut our FY27 revenue and EBITDA estimates by ~1-2%, led by delays in tariff hike and rising share of M2M subs in the mix.
- We continue to build in the next round of tariff hikes (~15% or INR50/month on the base pack) in 2QFY27, though there could be a delay of few months to 3Q.
- We expect FY26-28E revenue/EBITDA/PAT CAGR of ~15%/18%/24% for RJio, driven by tariff hike flow-through in wireless and acceleration in FWA offerings.
- We value RJio on DCF implied ~11.6x Mar'28 EV/EBITDA to arrive at our enterprise valuation of INR11.3t (USD120b) for RJio (Wireless + Home broadband). We assign ~USD8b (INR740b) valuation to other non-mobility offerings under JPL to arrive at **INR12t (or ~USD128b) enterprise valuation**.
- Factoring in net debt, our equity valuation for JPL stands at INR10.7t (~USD114b). The attributable equity value for RIL, after adjusting for ~33.5% minority stake, comes to **INR525/share**.

Exhibit 22: We ascribe enterprise value of ~USD128b to JPL (implies INR525/share attributable value for RIL)

Digital services (Sep'27 basis)	EBITDA	Implied multiple	Value (INR b)	Value (USD b)
RJIL	971	11.6	11,264	120
Wireless	843	11.6	9,775	104

Equity value			10,692	114
Attributable to RIL (66.48% stake)			7,103	76
RIL's stake value (INR/share)			525	

Source: Company, MOFSL

RJio – Key takeaways from the management meeting

JPL IPO and the key priorities over the medium term

- RIL is advancing steadily toward the listing of Jio Platforms (JPL) as the key regulatory approval for lower minimum float is now in place.
- The key priority areas over the medium term are: a) gain some more market share in the mobility business, b) continue to accelerate home broadband (HBB) rollouts through innovations to increase the addressable market, c) drive market share gains in Enterprise through differentiated and proprietary services, and d) scale up digital services. Management expects next few years to be very exciting for JPL.

5G adoption and data usage momentum remain strong; focus remains on organic ARPU growth (for now)

- RJio's total subscriber base increased to ~524m in 4QFY26, with sustained leadership in net additions (36m+ net adds).
- 5G adoption continues to scale rapidly (~75m net additions in FY26), leading to ~54% of RJio's mobility users now using 5G.
- Data traffic grew sharply in FY26 (+30.8% YoY), driven by higher 5G penetration and increased fixed broadband usage.
- Per capita data consumption increased to ~42.3 GB/month in 4Q (vs. ~40.7 GB QoQ), reflecting deeper engagement.
- ARPU improved marginally to INR214 (vs. INR213.7 QoQ), despite two fewer days QoQ, supported by subscriber mix improvements and higher engagement.
- Management indicated that even without a tariff hike, ARPU should continue to grow ~4-5% YoY, driven by uptrading and bundling of value-added services.

HBB net adds moderate in 4Q; innovations in HBB to expand TAM

- RJio's fixed broadband base crossed ~27m subscribers, with ~9.6m net additions in FY26, with Jio AirFiber contributing over 75% of net adds during FY26.
- The net additions moderated during 4Q, due to the change in devices to non-line of sight (nLOS). However, management noted that this will widen the total addressable market for HBB.

Enterprise growth accelerating with integrated digital solutions

- RJio continues to expand its managed services portfolio, including connectivity, WiFi, security, and cloud solutions through proprietary solutions.
- Strong traction in large enterprise deals across retail, manufacturing, BFSI, and government sectors. As per management, Meghraj cloud contract has further scaled up.
- Deployment of high-capacity backbone for hyper scalers across metro and NLD network helps to increase RJio's share in deal wins.
- The growth in JPL is likely to remain higher than RJio (albeit on a lower base) with higher incremental margins, as the cost of delivering services does not rise in line with revenue growth, providing operating leverage.

Digital ecosystem driving engagement and monetization

- RJio is leveraging its network to act as a distribution gateway for digital services and partner platforms.
- Bundling strategy across content, connectivity, and devices driving ARPU uplift and customer stickiness.

- Strong ecosystem play across entertainment, broadband, and enterprise solutions enhancing lifetime value.
- Continued focus on AI-native network operations improving efficiency and customer experience.
- Monetization of digital services supported by deeper engagement and premium service offerings.

Revenue growth picks up (14% YoY, excl. RCPL demerger impact), though margins continue to moderate

- Reliance Retail's (RR) consolidated **net revenue grew 11% YoY** to INR873b (vs. our est. of INR840b). Excluding the impact of RCPL demerger (from Dec'25), the growth on **comparable basis was ~14% YoY**.
- In 4Q, RR added 333 new stores (closed 152 stores), leading to net 181 store adds to reach 20,160 stores (added 820 net stores in FY26). Net area grew by a modest ~0.2m sqft QoQ to 78.3m sqft (1% YoY).
- Transactions grew 62% YoY to 585m (up 12% QoQ), driven by the strong ramp-up in hyperlocal offerings. RR's registered customer base grew 11% YoY to 387m.
- Operational **EBITDA inched up only ~3% YoY to INR67b (~5% beat)** as EBITDA margins contracted by ~60bp YoY to 7.7% (largely in line).
- Depreciation stood at INR15.8b (up 13% YoY), while interest costs declined 23% YoY to INR5.2b and investment income grew 15% YoY to INR2.3b.
- Consequently, PAT at INR35.6b was largely stable YoY.
- For FY26, RRVL **consol revenue/EBITDA/PAT grew 12%/8%/12% YoY**. Revenue growth, excluding FMCG demerger, would likely be a few percentage points higher.
- RRVL's FY26 OCF (post interest and leases) stood at INR218b (vs. INR176b YoY), aided by improved profitability and working capital release. Nevertheless, high capex at INR291b (vs. INR187b YoY) resulted in FCF outflow of INR69b (vs. INR8b outflow YoY).
- As a result, RRVL's net debt increased by INR30b YoY to INR357b.

JioMart expands in non-grocery categories; RCPL revenue jumps ~2.2x YoY

- JioMart continues to expand its reach across 5,100+ pin-codes in 1,200+ cities, serviced by a network of 3,100+ stores.
- In 4Q, the platform added 5.8m new customers (+98% YoY) while delivering strong order momentum. 4Q average daily orders surged 300%+ YoY and 29% QoQ.
- The platform strengthened its marketplace ecosystem, growing its seller base by 22% YoY.
- Expanded non-grocery quick hyper-local commerce network to ~680 electronics stores and 1.7k F&L stores with two-hour delivery promise.
- Reliance Consumer Products (RCPL, FMCG arm demerged from RR) delivered ~INR74b in revenue (2.2x YoY), with Independence/Campa revenue surpassing INR26b/INR47b in FY26. **Campa became India's #4 largest CSD brand with double-digit market share in key markets.**

Valuation and view: Ascribe ~INR8.5t EV to RRVL (INR500/share for RIL)

- We expect store pickup additions and increased momentum in QC to support double-digit revenue growth for RR over the medium term. However, near-term profitability is likely to be adversely impacted by losses in QC.
- We fine-tune our FY27-28 estimates and now project a CAGR of ~12%/10% in RR's revenue/EBITDA over FY26-28.

- We ascribe a 28x Mar'28E blended EV/EBITDA multiple (~30x for core retail and ~6x for connectivity) to arrive at an EV of ~INR8.5t for RRVL and an attributable value of INR500/share for RIL's stake in RRVL. Sustained mid-teen revenue growth in RR remains the key trigger for RIL's stock price.

Exhibit 36: Ascribe EV of INR8.5t to RR, implying INR500/share valuation for RIL's stake

RRVL valuation	EBITDA (INR b)	multiple (x)	Value
Core EBITDA	279	30	8,380
Connectivity	30	6	164
Enterprise Value (INR b)	309	28	8,544
Less Net Debt			439
Equity Value (INR b)			8,105
No of Shares (b)			13.5
Equity value (INR/sh)			599
RIL stake in RRVL			83.5%
RRVL value in RIL SOTP (INR/sh)			500

Reliance Retail – Key takeaways from the management meeting

- **Growth:** RRVL's revenue growth picked up to ~11% YoY in 4Q (vs. ~9% YoY in 3Q), driven by mid-to-high single-digit SSSG in grocery, fashion & lifestyle categories. Management indicated that growth on comparable basis was likely higher at ~14% YoY. RRVL delivered ~12% YoY growth in FY26, despite FMCG demerger wef Dec'25, driven by broad-based growth across consumption baskets and ramp-up of hyperlocal deliveries in JioMart.
- **Store expansion:** The business added 333 new stores during 4Q (181 net stores), bringing the total store count to 20,160 with 78.3m sqft. (+1% YoY) of retail space.
- **JioMart/Hyperlocal Commerce:** JioMart continues to expand its reach across India, serviced by a network of 3,100+ stores. Customer acquisition accelerated in 4Q with the addition of 5.8m new customers, expanding the registered base by 98% YoY. 4Q average daily orders surged 29% QoQ (~4x YoY). The platform strengthened its marketplace ecosystem, growing the seller base by 22% YoY and pivoting to 2-hour delivery for select Electronics and F&L merchandize.
- **Margins:** Operating EBITDA inched up only ~3% YoY (and ~8% YoY in FY26) due to the adverse impact from the scale-up of lower-margin hyperlocal deliveries. Management indicated that margin trajectory would be a function of relative growth between offline and online businesses.
- **Fashion & Lifestyle:** The business delivered broad-based growth across categories, led by strong customer demand and outperformance in men's fashion. Strategic refresh and digital enablement of over 1.5k stores boosted customer experience. The business operates 1.7k fashion & lifestyle stores with 2-hour delivery promise in key locations.
- **AJIO & Digital Fashion:** AJIO delivered steady growth, driven by higher platform engagement with among the highest ABVs in the industry. AJIO Rush expanded its reach to 600+ cities, with 4-hour delivery promise. **AJIO Luxe brand** portfolio grew 24% YoY, with option count up 11% YoY. **SHEIN** maintained revenue growth momentum, supported by strong user traction.
- **Jewelry:** The business delivered another quarter of strong performance. Average bill value grew 53% YoY, driven by rising gold prices with a marginal reduction in volume amid a continued strong customer demand during festive and wedding seasons.

- **Consumer Electronics:** The stores maintained revenue momentum, driven by successful campaigns and broad-based growth across categories led by Laptops, Mobiles, and TVs. The Digital India Sale registered strong traction, delivering 30% YoY growth (INR5b in a single day). The resQ service arm delivered steady revenue growth, scaling up the service network to 1,621 locations (+9% YoY). The business operates 1,400+ electronics stores with 2-hour delivery promise.
- **Grocery & Metro:** RRVL reached 1k big-box retail stores in grocery segment. Big-box stores maintained steady performance, driven by festive demand and continued growth in everyday consumption baskets. Metro delivered strong growth, driven by higher customer count and improved ABV.
- **Reliance Consumer Products:** The FMCG vertical, now operating as an independent and focused organization following its demerger from RRVL, delivered strong performance in FY26.
 - Beverages grew 1.6x YoY, with **Campa brand** achieving INR4.7b in gross sales in FY26, establishing itself as **India's 4th largest CSD brand**. Overall beverage revenue stood at ~INR6b.
 - **Independence brand** crossed INR2.6b in annual sales, with daily essentials forming ~40% of RCPL's sales.
 - Water business scaled up to establish RCPL as India's 3rd largest branded water player.
 - Strategic acquisitions strengthened the portfolio—RCPL acquired majority stakes in Goodness Group Global (Nexba) for international beverage expansion and Manna for specialty health food products.
 - Ongoing bottling capacity expansion and food park investments should further enhance scale across the RCPL portfolio.

Standalone: Volatility weighs on standalone performance

O2C: Weak 4Q performance due to high costs

- **O2C SA EBITDA down 15% YoY in 4Q:** 4Q EBITDA declined 15% YoY to INR105b, despite strong fuel cracks, as margin gains were offset by higher crude premiums, freight, insurance and fuel costs. Consumer-focused actions (LPG diversion, KGD6 allocation, stable retail fuel prices) led to under-recoveries, while SAED on exports and weak polymer spreads further weighed on profitability.
- Production meant for sale decreased 4% YoY. The Jio-BP network added 283 new outlets in the last 12 months, resulting in robust YoY volume growth of 24%/37% in HSD/MS. Polymer margins declined amid rise in naphtha prices, with PE/PP margins down 4%/28% YoY and PVC margin up 2% YoY. Consol. O2C EBITDA (incl. other income) decreased 4% YoY to INR145b.
- **Jio-BP continues to deliver strong performance:** Jio-BP expanded its network to 2,199 fuel outlets (vs. 1,916 in 4QFY25). Its quarterly sales grew 24% YoY for HSD and 37% YoY for MS, significantly outperforming the industry growth rates of 6.1% for HSD and 6.5% for MS.
- **Global oil demand** rose by 0.5mb/d YoY to 103.4mb/d, with steady demand across gasoline, diesel and jet/kero. Global refinery crude throughput was higher by 0.3 mb/d YoY at 82.5 mb/d in 4Q.

Jio-BP's HSD/MS sales grew 24%/37% YoY.

Petchem: Mixed margins and demand trends across polymers; cost pressure and ME disruptions weigh on chemical margins

PVC margin up 2% YoY, while PE/PP margins down 4%/28% YoY in 4Q.

- In the **polymers segment**, margins witnessed mixed trends amid higher naphtha prices in 4Q. PVC margins increased by 2%, while PE and PP margins fell by 4% and 28% YoY. In FY26, PE/PVC margins were up 2%/1% YoY, while PP margins were down 5% YoY. In FY26, EDC prices fell 30% to USD206/mt.
- During 4QFY26, domestic **polymer** demand inched up 0.3% YoY. Demand for PP/PE increased by 3.3%/3.2%, supported by segments such as raffia, furniture, household goods, appliances, paints, automotive, and packaging. In contrast, PVC demand declined by 10%, impacted by weaker pipe demand in the agriculture and construction sectors, along with reduced import availability.
- In 4Q, on a YoY basis, domestic **polyester** demand rose by 0.7%. PSF demand grew by 4.9%, while PFY demand saw a marginal decline of 1.8%. Downstream textile demand turned largely need-based in Mar'26 amid heightened price volatility, limited ability of fabric producers to pass on higher yarn costs, and constrained gas availability. PET demand increased by 4.5%, driven by the beverage segment in preparation for the summer season.

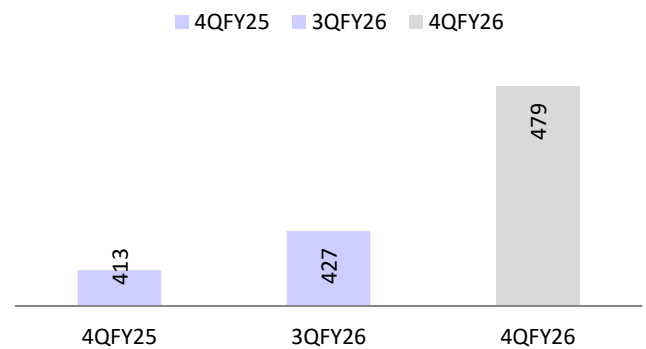

- In the **polyester chain**, margins declined marginally YoY to USD446/mt in FY26, while they were 16% up YoY at USD479/mt in 4QFY26.
- US ethane prices averaged at USD23.5cpg, down 14% YoY in 4Q, in line with lower US natural gas prices. However, US ethane prices averaged at USD24.3cpg, up 16% YoY in FY26.
- In 4QFY26, downstream chemical deltas remained under pressure amid 13% higher Naphtha prices and weak demand trends. ME disruption in feedstock, products, along with damage to infrastructure significantly tightened the markets in Mar'26, with several producers declaring Force Majeure.

At KGD6, average production stood at 25.2mmscmd of gas and ~17,310 bbl/day of oil and condensate in 4QFY26.

E&P: Muted volumes and soft realization

- **4QFY26** revenue declined 8.9% YoY, driven by lower gas realizations in KGD6 and CBM, along with reduced KGD6 volumes (down 6% YoY at 59.6BCFe). KGD6 prices fell to USD9.63/mmbtu (vs USD10.09/mmbtu), while CBM prices declined to USD9.01/mmbtu (vs USD10.36/mmbtu). EBITDA dropped 18.1% YoY to ~INR42b due to lower revenue and higher operating costs from maintenance and government levies.
- **FY26** revenue declined 5.4% YoY, primarily due to lower gas and oil/condensate from KGD6. Revenue was further hit by weaker realizations for CBM gas and KGD6 crude, partly offset by improved price realizations for KG-D6 gas. EBITDA declined by 10.1% YoY to INR190.5b with lower revenue and higher costs.
- Ceiling price applicable for KGD6 gas **declined to USD8.9/mmbtu** for 1HFY27.
- At CBM, the second phase of the multilateral well (MLW) campaign is underway to boost production. Drilling of 23 out of 40 planned MLW wells has been completed, of which 21 have been connected to the production system. Current production stands at 0.91mmscmd.

New Energy: Scaling up the integrated renewable energy ecosystem

- Solar manufacturing giga factory:** The company has **commissioned and operationalized** various lines of **solar PV module and cell manufacturing** and is targeting a **scale-up to ~20GWp (fully integrated) over the next few quarters**. Solar module lines are operational, while solar cell lines (HJT technology) commissioned last quarter are ramping up to full capacity, offering large-format, high-efficiency cells. The facility has also achieved ALMM approval for HJT modules.
- In the upstream value chain, **pilot lines for ingot and wafer are operational**, with phased commissioning of giga-scale facilities underway. Polysilicon and glass manufacturing units are progressing well, with commissioning targeted during the year.
- Battery business:** Scaling on track, with 40GWh BESS assembly and cell manufacturing capacity expected to be commissioned in phases during CY26. All key equipment has been received, with a roadmap to scale up to ~100GWh annual capacity.
- Renewable energy project at Kutch (~150GWp+) is progressing rapidly, with land development, infrastructure, engineering, and transmission work underway. Installations are expected to begin in the next few quarters, alongside the ramp-up of evacuation capacity to Jamnagar.
- The company has also signed a ~USD3b, 15-year green ammonia supply agreement with Samsung C&T, commencing CY29.
- RE generation capacity target remains at ~300BU, with capex in new energy continuing to scale. Utility-scale renewable investments are likely to be pursued via JV structures to optimize balance sheet impact.

We estimate RIL's SA EBITDA to remain flat YoY in FY27/28

- Range-bound O2C earnings performance over FY27-28:** Despite recent strength in diesel/gasoline/jet fuel cracks, Reliance is expected to report muted O2C performance due to higher crude premiums and high freight, insurance and fuel costs. Consumer-focused actions such as LPG diversion, KGD6 allocation and stable retail fuel prices might lead to sequential under-recoveries, while SAED on exports and weak polymer spreads could further weigh on profitability.
- Overall, we see a range-bound EBITDA performance in the standalone business over FY27-28.** We are not building in any earnings contribution from new petchem expansion projects until FY28.

- **KG-D6 EBITDA under pressure from natural decline and some pricing pressure:**
We are building in a slight decline in production volumes from KG D6, given the natural decline. We maintain our gas realization for 1HFY27 at USD8.9/mmbtu (KG D6 ceiling price).
- **New Energy can be a significant growth driver after FY30:** Reliance continues to progress on the 40GWh battery GIGA factory, which is set to commence operations in CY26. For both the integrated solar cell and module manufacturing business and the battery business, we assume only captive consumption until FY27 and assume 25%/75%/100% of sales in FY28/29/30 to external customers. We maintain our New Energy business valuation for RIL at INR174/sh and estimate FY30 New Energy EBITDA at INR169b, ~8% of FY28 consol. EBITDA, and believe New Energy can be a significant growth driver after FY30.

Disclosures

The following Disclosures are being made in compliance with the SEBI Research Analyst Regulations 2014 (herein after referred to as the Regulations).

Motilal Oswal Financial Services Ltd. (MOFSL) is a SEBI Registered Research Analyst having registration no. INH000000412. MOFSL, the Research Entity (RE) as defined in the Regulations, is engaged in the business of providing Stock broking services, Depository participant services & distribution of various financial products. MOFSL is a listed public company, the details in respect of which are available on www.motilaloswal.com. MOFSL (erstwhile Motilal Oswal Securities Limited - MOSL) is registered with the Securities & Exchange Board of India (SEBI) and is a registered Trading Member with National Stock Exchange of India Ltd. (NSE) and Bombay Stock Exchange Limited (BSE), Multi Commodity Exchange of India Limited (MCX) and National Commodity & Derivatives Exchange Limited (NCDEX) for its stock broking activities & is Depository participant with Central Depository Services Limited (CDSL) National Securities Depository Limited (NSDL), NERL, COMRIS and CCRL and is member of Association of Mutual Funds of India (AMFI) for distribution of financial products and Insurance Regulatory & Development Authority of India (IRDA) as Corporate Agent for insurance products. Details of associate entities of Motilal Oswal Financial Services Limited are available on the website at <http://online-reports.motilaloswal.com/Dormant/documents/List%20of%20Associate%20companies.pdf>

MOFSL and its associate company(ies), their directors and Research Analyst and their relatives may; (a) from time to time, have a long or short position in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein. (b) be engaged in any other transaction involving such securities and earn brokerage or other compensation or act as a market maker in the financial instruments of the company(ies) discussed herein or act as an advisor or lender/borrower to such company(ies) or may have any other potential conflict of interests with respect to any recommendation and other related information and opinions.; however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the associates of MOFSL even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report.

MOFSL and / or its affiliates do and seek to do business including investment banking with companies covered in its research reports. As a result, the recipients of this report should be aware that MOFSL may have a potential conflict of interest that may affect the objectivity of this report. Compensation of Research Analysts is not based on any specific merchant banking, investment banking or brokerage service transactions. Details of pending Enquiry Proceedings of Motilal Oswal Financial Services Limited are available on the website at <https://galaxy.motilaloswal.com/ResearchAnalyst/PublishViewLitigation.aspx>

A graph of daily closing prices of securities is available at www.nseindia.com, www.bseindia.com. Research Analyst views on Subject Company may vary based on Fundamental research and Technical Research. Proprietary trading desk of MOFSL or its associates maintains arm's length distance with Research Team as all the activities are segregated from MOFSL research activity and therefore it can have an independent view with regards to Subject Company for which Research Team have expressed their views.

Regional Disclosures (outside India)

This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL & its group companies to registration or licensing requirements within such jurisdictions.

For Hong Kong:

This report is distributed in Hong Kong by Motilal Oswal capital Markets (Hong Kong) Private Limited, a licensed corporation (CE AYY-301) licensed and regulated by the Hong Kong Securities and Futures Commission (SFC) pursuant to the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) "SFO". As per SEBI (Research Analyst Regulations) 2014 Motilal Oswal Securities (SEBI Reg. No. INH000000412) has an agreement with Motilal Oswal capital Markets (Hong Kong) Private Limited for distribution of research report in Hong Kong. This report is intended for distribution only to "Professional Investors" as defined in Part I of Schedule 1 to SFO. Any investment or investment activity to which this document relates is only available to professional investor and will be engaged only with professional investors." Nothing here is an offer or solicitation of these securities, products and services in any jurisdiction where their offer or sale is not qualified or exempt from registration. The Indian Analyst(s) who compile this report is/are not located in Hong Kong & are not conducting Research Analysis in Hong Kong.

For U.S.

Motilal Oswal Financial Services Limited (MOFSL) is not a registered broker - dealer under the U.S. Securities Exchange Act of 1934, as amended (the "1934 act") and under applicable state laws in the United States. In addition MOFSL is not a registered investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act" and together with the 1934 Act, the "Acts"), and under applicable state laws in the United States. Accordingly, in the absence of specific exemption under the Acts, any brokerage and investment services provided by MOFSL, including the products and services described herein are not available to or intended for U.S. persons. This report is intended for distribution only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the Exchange Act and interpretations thereof by SEC (henceforth referred to as "major institutional investors"). This document must not be acted on or relied on by persons who are not major institutional investors. Any investment or investment activity to which this document relates is only available to major institutional investors and will be engaged in only with major institutional investors. In reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act") and interpretations thereof by the U.S. Securities and Exchange Commission ("SEC") in order to conduct business with Institutional Investors based in the U.S., MOFSL has entered into a chaperoning agreement with a U.S. registered broker-dealer, Motilal Oswal Securities International Private Limited. ("MOSIPL"). Any business interaction pursuant to this report will have to be executed within the provisions of this chaperoning agreement.

The Research Analysts contributing to the report may not be registered /qualified as research analyst with FINRA. Such research analyst may not be associated persons of the U.S. registered broker-dealer, MOSIPL, and therefore, may not be subject to NASD rule 2711 and NYSE Rule 472 restrictions on communication with a subject company, public appearances and trading securities held by a research analyst account.

For Singapore

In Singapore, this report is being distributed by Motilal Oswal Capital Markets (Singapore) Pte. Ltd. ("MOCMSPL") (UEN 201129401Z), which is a holder of a capital markets services license and an exempt financial adviser in Singapore. This report is distributed solely to persons who (a) qualify as "institutional investors" as defined in section 4A(1)(c) of the Securities and Futures Act of Singapore ("SFA") or (b) are considered "accredited investors" as defined in section 2(1) of the Financial Advisers Regulations of Singapore read with section 4A(1)(a) of the SFA. Accordingly, if a recipient is neither an "institutional investor" nor an "accredited investor", they must immediately discontinue any use of this Report and inform MOCMSPL .

In respect of any matter arising from or in connection with the research you could contact the following representatives of MOCMSPL. In case of grievances for any of the services rendered by MOCMSPL write to grievances@motilaloswal.com.

Terms & Conditions:

This report has been prepared by MOFSL and is meant for sole use by the recipient and not for circulation. The report and information contained herein is strictly confidential and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of MOFSL. The report is based on the facts, figures and information that are considered true, correct, reliable and accurate. The intent of this report is not recommendatory in nature. The information is obtained from publicly available media or other sources believed to be reliable. Such information has not been independently verified and no guaranty, representation of warranty, express or implied, is made as to its accuracy, completeness or correctness. All such information and opinions are subject to change without notice. The report is prepared solely for informational purpose and does not constitute an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments for the clients. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. MOFSL will not treat recipients as customers by virtue of their receiving this report.

Disclaimer:

The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent. This report and information herein is solely for informational purpose and may not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. Each recipient of this document should make such investigations as it deems necessary to arrive at an independent evaluation of an investment in the securities of companies referred to in this document (including the merits and risks involved), and should consult its own advisors to determine the merits and risks of such an investment. The investment discussed or views expressed may not be suitable for all investors. Certain transactions -including those involving futures, options, another derivative products as well as non-investment grade securities - involve substantial risk and are not suitable for all investors. No representation or warranty, express or implied, is made as to the accuracy, completeness or fairness of the information and opinions contained in this document. The Disclosures of Interest Statement incorporated in this document is provided solely to enhance the transparency and should not be treated as endorsement of the views expressed in the report. This information is subject to change without any prior notice. The Company reserves the right to make modifications and alternations to this statement as may be required from time to time without any prior approval. MOFSL, its associates, their directors and the employees may from time to time, effect or have effected an own account transaction in, or deal as principal or agent in or for the securities mentioned in this document. They may perform or seek to perform investment banking or other services for, or solicit investment banking or other business from, any company referred to in this report. Each of these entities functions as a separate, distinct and independent of each other. The recipient should take this into account before interpreting the document. This report has been prepared on the basis of information that is already available in publicly accessible media or developed through analysis of MOFSL. The views expressed are those of the analyst, and the Company may or may not subscribe to all the views expressed therein. This document is being supplied to you solely for your information and may not be reproduced, redistributed or passed on, directly or indirectly, to any other person or published, copied, in whole or in part, for any purpose. This report is not directed or intended for distribution to, or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL to any registration or licensing requirement within such jurisdiction. The securities described herein may or may not be eligible for sale in all jurisdictions or to certain category of investors. Persons in whose possession this document may come are required to inform themselves of and to observe such restriction. Neither the Firm, not its directors, employees, agents or representatives shall be liable for any damages whether direct or indirect, incidental, special or consequential including lost revenue or lost profits that may arise from or in connection with the use of the information. The person accessing this information specifically agrees to exempt MOFSL or any of its affiliates or employees from, any and all responsibility/liability arising from such misuse and agrees not to hold MOFSL or any of its affiliates or employees responsible for any such misuse and further agrees to hold MOFSL or any of its affiliates or employees free and harmless from all losses, costs, damages, expenses that may be suffered by the person accessing this information due to any errors and delays.
