FII includes depository receipts

- Fusion Finance (FUSION) reported a net profit of ~INR1.1b in 4QFY26 (vs. est. of INR691m). Fusion recognized a DTA of INR768m in 4QFY26 – this led to tax write-backs in the quarter. FY26 PAT stood at ~INR139m (vs. a loss of ~INR12.2b in FY25). NII in 4QFY26 declined ~14% YoY to ~INR2.3b (in line). Opex was flat YoY at INR2.05b (in line). The cost-to-income ratio remained stable QoQ at ~69% (PQ: ~69% and PY: ~70%).
- PPOp rose ~3% YoY to ~INR931m (27% miss). FY26 PPOp declined ~51% YoY to ~INR3.6b. Net credit costs declined sequentially to ~INR556m (inline). Annualized credit costs in 4QFY26 declined ~150bp QoQ to ~3.6% (PQ: ~5.1%).
- Fusion has targeted an AUM of ~INR 100b by FY27, supported by a disciplined customer acquisition strategy and a continued focus on low-leveraged, stable borrower profiles. MSME is expected to be a key growth driver, led by deeper market penetration, increasing focus on the LAP segment, and expansion through new sourcing channels to strengthen origination and reach.
- The company's branch segmentation strategy, which classifies branches into A to D categories based on operating metrics and growth behavior, is enabling further calibrated expansion and better risk alignment at the branch level. Additionally, the ongoing platform migration is expected to materially enhance onboarding, servicing, and branch efficiency, thereby strengthening operational scalability and supporting sustainable, high-quality growth.
- NII in 4QFY26 remained subdued, primarily due to a broadly flat average AUM base along with higher liquidity buffers and lower DA income, which together temporarily weighed on income recognition. Going forward, NII is expected to grow in 1QFY27 and further accelerate from 2QFY27, thereby supporting PPOp growth. Asset quality remains strong and well-controlled, supported by robust CE of ~99.7%-99.8% across key markets, with GNPA/NNPA at ~3.2%/~0.5%, reflecting contained stress levels. Recoveries from written-off accounts remain healthy, with 90+ DPD recoveries exceeding ~INR350m, underscoring disciplined underwriting and tight portfolio monitoring.
- Fusion has demonstrated steady improvement across key operating parameters, reflecting stronger execution discipline and a refined risk framework. With a clear strategic direction and continued focus on quality-led growth, it is well positioned to scale its guided AUM to INR100b by FY27, implying ~35% growth over the base. This expansion is expected to be supported by improving asset quality trends and a strengthening MSME franchise. Backed by tighter customer selection and operational enhancements, the company is building a more resilient and sustainable growth model going forward.

- With recovery gaining traction, we expect Fusion to deliver an AUM CAGR of ~25% over FY26E-28E with a RoA/RoE of ~3.8%/ 13% by FY28E. **We reiterate our BUY rating with a revised TP of INR235 (based on 1.2x FY28E P/BV).**

Strong asset quality with improving CE and lower delinquencies

- GS3 declined ~120bp QoQ to ~3.2%, while NS3 declined ~12bp QoQ to 0.5%. Stage 3 PCR stood at 85% (PQ: 86.3%). Stage 2 dipped ~70bp QoQ to 1.0% and S2 PCR improved ~5pp QoQ to ~71.4%.
- The company has a management overlay of INR195m remaining after the release of INR100m in 4QFY26.
- Avg. CE (MFI) improved to 99.66% in 4Q (vs. 99.14% in 3Q). New book (MFI) is now at 87% of the portfolio with Avg. CE at 99.77% in 4Q. Net forward flow rate was < 0.1% in 4QFY26. Fusion's + >=3 borrowers declined to ~5% (PQ: 6.8%).
- We expect Fusion's credit costs to decline sharply from ~6% in FY26 to ~3.2%/ 3.1% in FY27E/FY28E.

NIM expands ~12bp QoQ; PSU borrowings dip ~4pp QoQ

- Reported NIM improved ~12bp QoQ to ~11.4%. Yields improved by ~10bp QoQ to 21.7%, while the CoB remained stable QoQ at ~10.3%, resulting in ~10bp QoQ improvement in spreads to ~11.4%.
- The share of public sector banks in the borrowing mix declined ~4pp QoQ to ~16% (PQ: 20%) as of Mar'26. Fusion has a liquidity of INR19b, supported by INR20b of fresh borrowings drawn in 4QFY26.
- With improved portfolio asset quality, lower interest income reversals, and gradual improvement in the funding access, we expect Fusion's NIM to expand from ~14.1% in FY26 to ~15.2% by FY28E.

Disbursement growth healthy at ~85% YoY; borrower base moderates

- Disbursements grew 85% YoY and 34% QoQ to ~INR21.4b. AUM declined ~18% YoY and grew 8% QoQ to ~INR74.1b.
- The borrower base declined to ~2.15m as on Mar'26 (down from ~2.32m as of Dec'25). We expect Fusion to deliver an AUM CAGR of ~25% over FY26-28E.

Highlights from the management commentary

- Fusion expects FY27 opex to increase by ~5-6% over FY26 levels despite business growth, supported by branch rationalization and operating efficiency initiatives. Management is also taking external expert support to further improve branch productivity and cost efficiency.
- Fusion had not recognized DTA over the past 4-5 quarters and has now resumed DTA recognition. Total DTA stood at ~INR3.9b, of which ~INR3.1b remains available for future utilization over the next 12-18 months.

Valuation and view

- Fusion reported a decent earnings performance in 4QFY26, supported by DTA recognition, tax write-backs, and further moderation in credit costs. Disbursement momentum continued to improve, with steady scale-up in the MFI book underpinned by prudent underwriting, as reflected in stronger collection efficiency and easing forward flow trends. Asset quality also remained resilient with continued improvement in key operating metrics, reinforcing the overall stability of the portfolio.
- Fusion currently trades at 1.1x FY27E P/B. With recovery gaining traction, we expect Fusion to deliver an AUM CAGR of ~25% over FY26E-28E with a RoA/RoE of ~3.8%/ 13% by FY28E. **We reiterate our BUY rating with a revised TP of INR235 (based on 1.2x FY28E P/BV).**

E: MOFSL Estimates

Highlights from the management commentary

Guidance and outlook

- Fusion remains confident of achieving an AUM of INR100b by Mar'27 while maintaining disciplined portfolio metrics and calibrated growth.
- Management believes the portfolio is well-positioned to withstand potential macroeconomic and geopolitical headwinds, supported by prudent customer selection, tighter guardrails, and improving operating discipline. The company continues to remain watchful of inflationary pressures and evolving macro developments and will monitor the environment closely.
- The overall weighted credit cost guidance stands at ~2.5%, supported by improving portfolio quality and increasing contribution from MSME. Long-term credit cost guidance for the MFI business remains at 3.25%-3.75% after adjusting for cyclical stress.
- Operating leverage is expected to improve from 2QFY27 onwards as average AUM starts expanding meaningfully while opex growth remains controlled.
- The company expects PPOP growth to resume from 1QFY27 with sharper acceleration from 2QFY27 onwards, driven by improving NII, stable opex, and stronger business momentum.
- Management indicated that there has been no impact from the West Asia crisis on portfolio performance or business growth so far.

Opening remarks and strategic priorities

- FY26 was an important year of learning, testing, and institutional building for the company. During the year, the company prioritized portfolio quality, materially strengthened credit guardrails, invested in collections infrastructure and technology, and sharpened customer selection across the MFI and MSME businesses.
- Fusion gained greater clarity on customer profiles, operating segments, and business lines that can scale sustainably with stronger execution discipline and better portfolio quality.
- The company has moved towards a significantly stronger operating framework, supported by tighter monitoring, improved customer selection, and better branch-level calibration.
- Since Nov'25, branches have been classified into categories A to D based on operating metrics and growth behavior. This framework is now driving calibrated growth and risk management at the branch level. Currently, ~90% of disbursements are originating from category A and B branches, which provides confidence around scalable growth without materially increasing portfolio risk.
- Fusion continues to focus on lower leveraged borrowers and more stable customer segments, while gradually improving the mix of new-to-company customers.

Business trends and disbursement momentum

- Disbursement momentum improved in 4QFY26, supported by sharper customer segmentation and continued investments in automation across onboarding and collections.

- Productivity improved materially across both MSME and MFI businesses as field teams operated with lower operational friction and better process efficiency.
- The company continues to witness healthy demand trends and indicated that the first 45 days of 1QFY27 have remained stable with no visible stress across the portfolio.
- Management highlighted that 1Q is seasonally slower for disbursements; however, current trends are tracking better than expected.
- Fusion continues to avoid entry-level borrowers and believes the INR40k-100k ticket size category remains the most favorable risk-adjusted segment. Growth during the quarter was driven largely by an increase in borrower volumes rather than ticket size expansion.

MSME strategy

- The MSME business continues to focus on Tier 3 and Tier 4 towns with a calibrated secured lending strategy. Within MSME, the company is increasing its focus on the LAP segment, particularly in the INR0.8m-1.5m ticket size category.
- The company remains conservative on borrower cash flows and FOIR assessments while taking measured exposure backed by collateral quality.
- The connector channel strategy has started scaling well, and management is experiencing encouraging traction from this sourcing model.
- Certain sectors and customer categories within MSME continue to remain under tighter scrutiny, with the company consciously reducing exposure to bottom-tier fringe borrowers. The company also continues to avoid “Fusion +2” customers in MFI while onboarding new borrowers, as part of its ongoing portfolio tightening exercise.

Asset quality and collections

- Collection efficiency trends remained robust across businesses, with MFI CE improving to 99.7% and MSME CE at 99.3%.
- Collection efficiency across key operating states such as UP, Bihar, and Odisha remained strong at ~99.7%, reflecting improving borrower behavior and stronger field execution.
- Bihar continues to perform exceptionally well with collection efficiency above 99%, while Tamil Nadu collection efficiency stood at ~99.8%.
- Portfolio stability has become broad-based, supported by improving customer behavior, stronger operating discipline, and tighter portfolio monitoring. The 90+dpd cash recoveries, including write-off recoveries, surpassed INR350m during the quarter, while the write-back component increased to INR210m from INR150m in 3QFY26.
- The collection model remains tightly managed through a combination of in-house field teams and AI-enabled calling infrastructure. A large part of monitoring and reminder systems is now AI and trigger-driven, enabling earlier intervention, tighter portfolio tracking, and better execution outcomes.
- Collections are now seeing positive impact from investments made in technology, monitoring systems, and people over the past few quarters.

Technology and operating infrastructure

- Fusion is in the process of migrating to a new LMS platform, with full migration expected to be completed by Aug'26.
- The new platform is expected to materially improve branch productivity, onboarding quality, and customer servicing capabilities.
- AI-enabled systems are increasingly being integrated into monitoring, collections, and customer engagement processes to improve operational efficiency and risk management.

Branch rationalization and expansion

- Fusion plans to focus on branch consolidation and improving operating efficiency at the branch level.
- The reduction in branch count is largely technical in nature and does not indicate a slowdown in business activity.
- At the same time, the company plans to add branches in Tamil Nadu, West Bengal, and Assam, where collection efficiency trends remain strong at ~99.8%.
- The company also intends to further strengthen customer onboarding, retention, and calibrated portfolio growth across existing and new centers.

Financial performance

- NII remained broadly flat QoQ as average AUM was largely stable, while incremental liquidity and lower direct assignment income also weighed on earnings. Management expects NII growth to resume from 1QFY27 onwards with stronger acceleration from 2QFY27.
- Other income increased during the quarter primarily due to higher write-off recoveries.
- PPOP remained subdued due to broadly flat average AUM, elevated liquidity carry costs, and lower direct assignment accruals.
- The company expects FY27 opex to increase by ~5-6% over FY26 levels despite business growth, supported by branch rationalization and operating efficiency initiatives. Management is also taking external expert support to further improve branch productivity and cost efficiency.

Liquidity, borrowings, and capital position

- Liquidity stood at INR19b during the quarter, including an additional liquidity buffer of ~INR5b maintained deliberately considering geopolitical uncertainties. This excess liquidity carries a quarterly cost of ~INR70-80m.
- CAR remained comfortable, and management believes the balance sheet is adequately capitalized to support the FY27 AUM target without requiring additional capital.
- Several lenders that were previously in watch-and-wait mode have now resumed lending and extended fresh credit lines.
- While PSU bank exposure declined, overall lender diversification improved with increasing contribution from private sector banks. One PSU bank also continued to support the company through ~INR8b of direct assignment transactions.
- Fusion indicated that PSU banks may gradually resume lending under credit guarantee schemes once annual results and balance sheets are reviewed.

- Average cost of borrowings remained stable QoQ at 10.3%, while marginal cost of borrowings moderated to 10.8%. The company expects incremental borrowing costs to improve gradually as lender diversification increases, subject to macro and geopolitical conditions.

DTA and tax write-backs

- The company recognized DTA worth INR768m during 4QFY26, resulting in tax write-backs during the quarter. Fusion had not recognized DTA over the past 4-5 quarters and has now resumed DTA recognition.
- Management indicated that additional tax write-backs could continue over the coming quarters as profitability improves further.
- Total DTA stood at ~INR3.9b, of which ~INR3.1b remains available for future utilization over the next 12-18 months, subject to auditor comfort and profitability trajectory.

Management and Board updates

- Priyanka Seth Wadhera joined the company as Chief Strategy Officer.
- Remika Agarwal joined the Board as Non-Executive Non-Independent Director.

Disclosures

The following Disclosures are being made in compliance with the SEBI Research Analyst Regulations 2014 (herein after referred to as the Regulations).

Motilal Oswal Financial Services Ltd. (MOFSL) is a SEBI Registered Research Analyst having registration no. INH000000412 and BSE enlistment no. 5028. MOFSL, the Research Entity (RE) as defined in the Regulations, is engaged in the business of providing Stock broking services, Depository participant services & distribution of various financial products. MOFSL is a listed public company, the details in respect of which are available on www.motilaloswal.com. MOFSL is registered with the Securities & Exchange Board of India (SEBI) and is a registered Trading Member with National Stock Exchange of India Ltd. (NSE) and Bombay Stock Exchange Limited (BSE), Multi Commodity Exchange of India Limited (MCX) and National Commodity & Derivatives Exchange Limited (NCDEX) for its stock broking activities & is Depository participant with Central Depository Services Limited (CDSL) National Securities Depository Limited (NSDL),NERL, COMRIS and CCRL and is member of Association of Mutual Funds of India (AMFI) for distribution of financial products and Insurance Regulatory & Development Authority of India (IRDA) as Corporate Agent for insurance products and is a member of Association of Portfolio Managers in India (APMI) for distribution of PMS products. Details of associate entities of Motilal Oswal Financial Services Ltd. are available on the website at <http://online-reports.motilaloswal.com/Dormant/documents/Associate%20Details.pdf>

MOFSL and its associate company(ies), their directors and Research Analyst and their relatives may; (a) from time to time, have a long or short position in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein. (b) be engaged in any other transaction involving such securities and earn brokerage or other compensation or act as a market maker in the financial instruments of the company(ies) discussed herein or act as an advisor or lender/borrower to such company(ies) or may have any other potential conflict of interests with respect to any recommendation and other related information and opinions.; however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the associates of MOFSL even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report.

MOFSL and / or its affiliates do and seek to do business including investment banking with companies covered in its research reports. As a result, the recipients of this report should be aware that MOFSL may have a potential conflict of interest that may affect the objectivity of this report. Compensation of Research Analysts is not based on any specific merchant banking, investment banking or brokerage service transactions. Details of pending Enquiry Proceedings of Motilal Oswal Financial Services Limited are available on the website at <https://qalaxy.motilaloswal.com/ResearchAnalyst/PublishViewLitigation.aspx>. As per Regulatory requirements, Research Audit Report is uploaded on www.motilaloswal.com > MOFSL-Important Links > MOFSL Research Analyst Compliance Audit Report.

A graph of daily closing prices of securities is available at www.nseindia.com, www.bseindia.com. Research Analyst views on Subject Company may vary based on Fundamental research and Technical Research. Proprietary trading desk of MOFSL or its associates maintains arm's length distance with Research Team as all the activities are segregated from MOFSL research activity and therefore it can have an independent view with regards to Subject Company for which Research Team have expressed their views.

Regional Disclosures (outside India)

This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL & its group companies to registration or licensing requirements within such jurisdictions.

For Hong Kong:

This report is distributed in Hong Kong by Motilal Oswal capital Markets (Hong Kong) Private Limited, a licensed corporation (CE AYY-301) licensed and regulated by the Hong Kong Securities and Futures Commission (SFC) pursuant to the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) "SFO". As per SEBI (Research Analyst Regulations) 2014 Motilal Oswal Securities (SEBI Reg. No. INH000000412) has an agreement with Motilal Oswal capital Markets (Hong Kong) Private Limited for distribution of research report in Hong Kong. This report is intended for distribution only to "Professional Investors" as defined in Part I of Schedule 1 to SFO. Any investment or investment activity to which this document relates is only available to professional investor and will be engaged only with professional investors." Nothing here is an offer or solicitation of these securities, products and services in any jurisdiction where their offer or sale is not qualified or exempt from registration. The Indian Analyst(s) who compile this report is/are not located in Hong Kong & are not conducting Research Analysis in Hong Kong.

For U.S.

Motilal Oswal Financial Services Limited (MOFSL) is not a registered broker - dealer under the U.S. Securities Exchange Act of 1934, as amended (the "1934 act") and under applicable state laws in the United States. In addition MOFSL is not a registered investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act" and together with the 1934 Act, the "Acts"), and under applicable state laws in the United States. Accordingly, in the absence of specific exemption under the Acts, any brokerage and investment services provided by MOFSL, including the products and services described herein are not available to or intended for U.S. persons. This report is intended for distribution only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the Exchange Act and interpretations thereof by SEC (henceforth referred to as "major institutional investors"). This document must not be acted on or relied on by persons who are not major institutional investors. Any investment or investment activity to which this document relates is only available to major institutional investors and will be engaged in only with major institutional investors. In reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act") and interpretations thereof by the U.S. Securities and Exchange Commission ("SEC") in order to conduct business with Institutional Investors based in the U.S., MOFSL has entered into a chaperoning agreement with a U.S. registered broker-dealer, Motilal Oswal Securities International Private Limited. ("MOSIPL"). Any business interaction pursuant to this report will have to be executed within the provisions of this chaperoning agreement.

The Research Analysts contributing to the report may not be registered /qualified as research analyst with FINRA. Such research analyst may not be associated persons of the U.S. registered broker-dealer, MOSIPL, and therefore, may not be subject to NASD rule 2711 and NYSE Rule 472 restrictions on communication with a subject company, public appearances and trading securities held by a research analyst account.

For Singapore

In Singapore, this report is being distributed by Motilal Oswal Capital Markets (Singapore) Pte. Ltd. ("MOCMSPL") (UEN 201129401Z), which is a holder of a capital markets services license and an exempt financial adviser in Singapore. This report is distributed solely to persons who (a) qualify as "institutional investors" as defined in section 4A(1)(c) of the Securities and Futures Act of Singapore ("SFA") or (b) are considered "accredited investors" as defined in section 2(1) of the Financial Advisers Regulations of Singapore read with section 4A(1)(a) of the SFA. Accordingly, if a recipient is neither an "institutional investor" nor an "accredited investor", they must immediately discontinue any use of this Report and inform MOCMSPL.

In respect of any matter arising from or in connection with the research you could contact the following representatives of MOCMSPL. In case of grievances for any of the services rendered by MOCMSPL write to grievances@motilaloswal.com.

Terms & Conditions:

This report has been prepared by MOFSL and is meant for sole use by the recipient and not for circulation. The report and information contained herein is strictly confidential and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of MOFSL. The report is based on the facts, figures and information that are considered true, correct, reliable and accurate. The intent of this report is not recommendatory in nature. The information is obtained from publicly available media or other sources believed to be reliable. Such information has not been independently verified and no guaranty, representation of warranty, express or implied, is made as to its accuracy, completeness or correctness. All such information and opinions are subject to change without notice. The report is prepared solely for informational purpose and does not constitute an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments for the clients. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. MOFSL will not treat recipients as customers by virtue of their receiving this report.

Disclaimer:

The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent. This report and information herein is solely for informational purpose and may not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. Each recipient of this document should make such investigations as it deems necessary to arrive at an independent evaluation of an investment in the securities of companies referred to in this document (including the merits and risks involved), and should consult its own advisors to determine the merits and risks of such an investment. The investment discussed or views expressed may not be suitable for all investors. Certain transactions -including those involving futures, options, another derivative products as well as non-investment grade securities - involve substantial risk and are not suitable for all investors. No representation or warranty, express or implied, is made as to the accuracy, completeness or fairness of the information and opinions contained in this document. The Disclosures of Interest Statement incorporated in this document is provided solely to enhance the transparency and should not be treated as endorsement of the views expressed in the report. This information is subject to change without any prior notice. The Company reserves the right to make modifications and alternations to this statement as may be required from time to time without any prior approval. MOFSL, its associates, their directors and the employees may from time to time, effect or have effected an own account transaction in, or deal as principal or agent in or for the securities mentioned in this document. They may perform or seek to perform investment banking or other services for, or solicit investment banking or other business from, any company referred to in this report. Each of these entities functions as a separate, distinct and independent of each other. The recipient should take this into account before interpreting the document. This report has been prepared on the basis of information that is already available in publicly accessible media or developed through analysis of MOFSL. The views expressed are those of the analyst, and the Company may or may not subscribe to all the views expressed therein. This document is being supplied to you solely for your information and may not be reproduced, redistributed or passed on, directly or indirectly, to any other person or published, copied, in whole or in part, for any purpose. This report is not directed or intended for distribution to, or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL to any registration or licensing requirement within such jurisdiction. The securities described herein may or may not be eligible for sale in all jurisdictions or to certain category of investors. Persons in whose possession this document may come are required to inform themselves of and to observe such restriction. Neither the Firm, nor its directors, employees, agents or representatives shall be liable for any damages whether direct or indirect, incidental, special or consequential including lost revenue or lost profits that may arise from or in connection with the use of the information. The person accessing this information specifically agrees to exempt MOFSL or any of its affiliates or employees from, any and all responsibility/liability arising from such misuse and agrees not to hold MOFSL or any of its affiliates or employees responsible for any such misuse and further agrees to hold MOFSL or any of its affiliates or employees free and harmless from all losses, costs, damages, expenses that may be suffered by the person accessing this information due to any errors and delays.
