Guar Seed

NCDEX Guarseed (Daily) is trading within a rising channel, indicating that the broader uptrend remains intact despite recent profit booking. Price continues to hold above the 20 EMA, reflecting sustained medium-term strength, while the lower boundary of the channel is acting as immediate support. A sustained move above 6200 can revive bullish momentum and pave the way towards 6450. On the downside, 5900 remains the first key support, followed by 5700 as a stronger demand zone. Overall, the trend remains positive as long as prices hold above the channel support and the 20 EMA, with dips likely to attract buying interest.

Guargum

NCDEX Guargum (Daily) is trading above the 20 EMA after a strong breakout from an ascending triangle pattern, indicating that the broader trend remains constructive. Following a sharp rally towards 12,800, the commodity witnessed profit booking and is now consolidating near the 11,800 breakout zone, which is acting as immediate support. A sustained move above 12,250 can revive bullish momentum and open the door for a retest of 12,800. On the downside, 11,800 remains the first key support, followed by 11,400 as a stronger demand zone. Overall, the trend remains positive above 11,800, with the current consolidation suggesting a healthy pause within the prevailing uptrend.

Jeera

NCDEX Jeera (Daily) is consolidating within a symmetrical triangle pattern, indicating a phase of compression before the next directional move. Price is trading above the 20 EMA, suggesting improving short-term momentum, while the recent rebound from the lower trendline highlights buying interest at lower levels. A sustained breakout above 21,450 can confirm bullish continuation and open the way towards 22,200. On the downside, 20,400 serves as immediate support, followed by 19,900 as a stronger demand zone. Overall, the trend remains neutral to positive, with a decisive breakout from the triangle likely to determine the next major move.

Turmeric

NCDEX Turmeric (Weekly) is exhibiting a strong bullish reversal after confirming a cup & handle breakout, signaling a continuation of the medium-to-long-term uptrend. Price has decisively moved above the key breakout level at 19,300 and is trading well above the 20 EMA, indicating robust buying momentum. Sustaining above this breakout zone could extend the rally towards 24,000, with a higher target near 26,500. On the downside, 19,300 now acts as immediate support, followed by 17,500 as a major demand zone. Overall, the broader trend remains strongly bullish above 19,300, with the breakout suggesting further upside potential while the 20 EMA continues to provide dynamic support.

Cocudak (NCDEX)

NCDEX Cocudakl (Weekly) is trading within a rising wedge pattern, while holding firmly above the 20 EMA, reflecting sustained medium-term bullish momentum. Price has recently broken above the key resistance at 3,700, confirming strength and extending the prevailing uptrend. A sustained move above current levels can drive prices towards 4,100, with the next major upside target placed at 4,350. On the downside, 3,700 now acts as immediate support, followed by 3,500 as a stronger demand zone. Overall, the broader trend remains bullish above 3,700, with the 20 EMA continuing to provide dynamic support despite the rising wedge formation.
