Dear Investors,

As we usher into a new Samvat 2083, India stands at a point where a resilient domestic economy meets a challenging external backdrop. Samvat 2082 tested investors' patience. Indian equities were weighed down by the West Asia conflict, Brent crude above $100/bbl, a rupee near ₹95/USD and record foreign institutional investor (FII) outflows, with Nifty50 down about 12% (till 29th Oct'26). Beneath the weak index performance, fundamentals held firm: GDP grew 7.8% in 1QFY27, record systematic investment plan (SIP) inflows absorbed foreign selling, and the primary market stayed active, with Jio Platforms' record IPO and NSE's listing among the highlights. After the correction, Nifty valuations of 17.5x forward earnings are 16% below the long-term average.

Key events in Samvat 2083

- Energy shock & policy response (West Asia conflict, Brent above $100/bbl, RBI repo rate hike cycle)
- Earnings growth trajectory (Nifty50 EPS growth 16% for FY27E and 14% for FY28E)
- Foreign selling vs domestic flows (FII outflows of ~$28b in Jan-Sep'26, offset by record SIP inflows

Outlook

Samvat 2083 begins on a cautious note, as an external energy shock overshadows a resilient economy. The West Asia conflict has kept Brent crude above $100/bbl, lifting CPI inflation to 5.54% in September and prompting a 25 bps repo rate hike to 5.50%. Record FII outflows of about USD28b in Jan–Sep'26 and a rupee near ₹95/USD have weighed on large caps, with the Nifty down about 12% over Samvat 2082. Yet domestic growth remains robust, with GDP at 7.8% in Q1FY27, while budgeted capex of ₹12.2 lakh crore and last year's tax and GST relief support demand, and record SIP inflows have absorbed foreign selling. Action also remains in the primary market: Jio Platforms' record IPO and NSE's listing headlined a busy year, with over 225 companies in the pipeline. Key monitorable include the RBI's rate trajectory, crude prices, FII flows, trade agreements and earnings growth.

We perceive FY27 to mark a return to double-digit earnings growth, with Nifty EPS expected to grow 16%/14% YoY in FY27/FY28 vs 5% in FY26. Nifty valuations are attractive at 17.5x forward earnings, 16% below the long-term average. After a ~10% correction from record highs, midcaps trade 6% below their long-term average, while smallcaps remain at a 25% premium; thus one needs to follow a selective approach in stock picking. For Samvat 2083, we are positive on BFSI and Capital Markets, Manufacturing, Global Outsourcing/Exports, and Consumption & Digital.

Banks are set for steady loan growth with improving margins, while rising participation supports capital markets segment. Manufacturers in healthcare devices, aerospace and auto components are scaling up on strong order books. Pharmaceutical ingredients, garments and port cargo are expected to gain from global outsourcing and trade agreements, while organized jewellery and quick-commerce platforms continue to gain market share.

Wishing you a Happy & Prosperous Samvat 2083

Key Themes

BFSI & Capital Markets

Banks are set for steady loan growth, with credit growth of 15.1-15.9% expected in FY27. Margins should improve as surplus FCNR deposits are deployed and higher repo rates pass through to loan yields.

Capital markets remain attractive with rising participation. Record monthly systematic investment plan (SIP) inflows of ₹32,490 crore in September and the partial rollback of CAS norms from 7-Dec-26 support exchange volumes.

Manufacturing

Indian manufacturers are scaling up across healthcare devices, aerospace and auto components. Capacity additions, strong order books and new platforms should drive multi-year growth.

Operating leverage and a shift to higher-value products should improve margins and returns. Diversification into semiconductors, consumer electronics, nuclear and oil & gas widens the growth runway.

Global Outsourcing

Pharmaceutical ingredients, garments and port cargo are gaining from global outsourcing and trade. Capacity ramp-ups, contracted business and global acquisitions provide growth visibility.

A weaker rupee supports exporters. Trade deals with the UK, Oman and New Zealand are in place, while the India-EU and India-US agreements are under finalisation, adding further tailwinds.

Discretionary Consumption & Digital

Organised players continue to gain share in categories like jewellery, led by strong brands, store expansion and a rising share of higher-value products.

Despite increasing competition, quick commerce and food delivery platforms continue to see strong user traction. Rapid store additions and improving operating leverage support sustained scale-up and profitability.
